Parents/Guardians,

We appreciate your support in ensuring that students wear the correct school uniform on the designated days. Maintaining high standards in appearance helps foster a sense of pride, belonging, and respect within our school community.

Wearing the correct uniform consistently also helps students develop important habits such as responsibility, organisation, and attention to detail — qualities that will serve them well in later life and the world of work. Learning to meet expectations and present themselves appropriately are valuable life skills that begin in school.

We kindly ask for your partnership in reinforcing these expectations at home so that together we can continue to uphold the high standards of our school community.
